MARINE COURT.

Important Question of Practice.

Ropaus es. Spriman and Others.—This was an o recover \$10,000 for alleged false imprisonment, y brought in the Supreme Court, and was moved re to the Marine Court. The motion to transfer was serigically brought in the Supreme Court, and was moved from there to the Marine Court. The motion to transfer was hitsat do one. Judge Barnard, before whom the case was then tried, after hearing counsel on both sides and all the proceedings and pleadings in the case, decided that is belonged to that class of case, decided that is belonged to that class of case, decided that is belonged to that class of case, decided that form the Supreme and other courts of record to the Marine Court. A jury was empanellod and the question from the Supreme and other courts of record to the Marine Court, A jury was empanellod and the question of jurisdiction raised by defendant's counsel. Upon that point Judge Curtis eaid that so far as jurisdiction was conserved it is res ofjudicate, it having been decided upon after Migalion, and on motion by Judge Barnard, and he (Judge Curtis) and the propose to put in collision his judgment with the opinions of a Judge of the Supreme Court. Counsel for the Supreme Court. Counsel for the case opinions of a Judge of the Supreme Court. Counsel for the case of the complaint of the sacred character of the personal liberty of the citizen, and instructed them that, if they were mained that the proof warranted it, they could bring in a vendet for any sum not exceeding the amount prayed for in the complaint. Judge Curtis, at the same time took, occasion to be observed that the Marine Court, that is a very count of the Supreme Court, for the very dovious reason that rights one evested in parties this gate of the Jurisdiction. Further, that in the complaint of the Supreme Court, for the supreme Court, for the supreme Court. The Court granted the might be well as might have recovered in the Supreme Court. The Court granted the Marine counts of strict technical recover. The Court granted the Bewance on the ground that, as the parties litigant surrendered to gifts by the transfer of the case, neither did counsel surrender any rights or any possible rights they might have enjoyed under the prior jurisdic

THE BONARD WILL CASE.

Another Day's Legal Scramble after the Frenchman's Money-"A Very Pretty Quarrel"-The Society for the Prevention of Cruelty to Animals Divided Against

before Surrogate Hutchings. As the case now stands it is one of the prettiest legal quarrels on record, and invariably draws a crowded house to the usually deserted temple of Surrogate flutchings. Old Louis Bonard's last will and iestament was made on the 13th day of February last. This will leaves all the real and personal property of THE DECRASED METEMPSYHOOSIAN, to the amount of nearly \$150,000 to the American Society for

the Prevention of Crucity to Animals. A previous will was made on the 11th of February, in which all the real and personal property was left to the same society, less \$40,000, which is devised to two female individuals. Judge Porter, on behalf of the latter, says that old Louis was insane

Mr. Gerry. on the part of the American Society for the Prevention of Greetly to Aminals, says that he was sane. Mr. Campbell, who is made executor of the last will with Mr. Bergh, for some reason or other of his own, has been any louis to give evidence tending to show, in the confession of old fionard himself, that he was not in his right mind when he made the second will, which would consequently make it have been and the made the second will, which would consequently make it has only the first property of the society, objected to his course, for this reason, that if the hast will

He naturally has a decided of jection to leasening the validity of this will, which he may yet have to fall back on. On the contrary, Amesirs, Coudert first-hers, who represent absent relatives in France, were most analous to have this evidence damaging to the second will introduced for two reasons, one being its direct effect on the first will, and its indirect effect on the validity of the factors will introduced for two reasons, one being its direct effect on the first will, and the indirect effect on the validity of the first will, the havenest of the French relatives being of course to overthrow both wills. Neither Mr. Bergh nor his counsel is

Mr. Campbell for volunteering the evidence, which would have the effect of lessening the validity of the first will, and was believed that yearenday's proceedings would have been of a lively character in consequence. Mr. Bergh hinself was greent, looking as if butter would freeze in his month. Mr. John G. MONEY EASY. The money market was easy, or rather became so ate in the day. At the usual hour for making engagements lenders readily obtained seven per cent on stocks, and in some instances seven gold. Bemoney to the street, and large amounts were loaned at seven, six, five and even four per cent.

Prime commercial paper was quoted 9 a 12 per cent discount on the street, the business being chiefly at the intermediate figures.

POREIGN EXCHANGE HIGHER The foreign exchange market was active, owing to a considerable inquiry for bills, and the leading bankers advanced their rates for sterling $\frac{1}{2}$ per cent over the highest quotations of Saturday. The following were the rates at the close of business:-Sterling, sixty days, commercial, 10s a 108½; good to prime bankers', 108% a 108%; short sight, 109% a 109%; Paris, sixty days, 5.45 a 5.37%; short sight, 5.35 5.3234; Antwerp, 5.3134 a 5.25; Switzerland, 5.30 a 5.25; Hamburg, 35% a 35%; Amsterdam, 40% a 40%; Frankfort, 40% a 41%; Bremen, 78 a 78%;

Prussian thalers, 72 a 72%.

GOLD STRONG—112% A 112%.

The gold market was strong, under further purchases by the clique, who, as noticed in Sunday's HERALD, enanged their tactics from "bear" to "bull." To discourage company in their movement they made the market weak at the opening and dropped the price from 112% to 112%. A large short interest was formed last week, in anticipation of the Treasury disbursements of gold on account of the November interest on the public debt, and the amount to come on the street has been already sold. "bears" were selling their gold the present clique covered their speculative contracts and went "long." Their further purchases to-day advanced the price to 112%, but they permitted a reaction to 112% in order to keep the short interest alive. The "bears," in making their deliveries to-day, paid as high as 1-32 for the use of gold. After three o'clock a large business was done in engagements of gold for to-morrow, and borrowers paid as high as 5:64, the rate closing at 1-16 a 5-64. The course of the market is shown in the

GOVERNMENTS FIRM. The government list was firm in sympathy with a considerable improvement in London and the stronger tone of the gold market, but the market was not active. The following were the closing street prices:—United States currency sixes, 111% a 111%; do. do., 1881, registered, 115 a 115%; do. do., coupon, 116% a 116%; do. five-twenties, registered, May and November, 110 bid; do. do., 1862, coupon, do., 114% a 115; do. do., 1864, do. do., 114; do. do., 1865, do. do, 114% a 115; do. do., registered, January and July, 112%; do. do., 1865, coupon, do., 113 a 113%; do. do., 1867, do. do., 113% a 113%; do. do., 1868, do. do., 113 bid; do. ten-forties, registered, 108 a 108%; do. do., coupon, 109% a 109%. SOUTHERN SECURITIES STRONG.

The Southern list was strong, with a moderately active and well distributed business. The Tennessees and North Carolinas were in good request at better prices. The following were the latest street quotations:—Tennessee, ex coupon, 65 a 66 %; do. new, 65 % a 67; Virginia, ex coupon, 59 a 60; do. registered stock, old, 48 a 51; do. sixes, consoil-dated bonds, 61 a 61%; do. sixes, deferred scrip, do. sevens, gold, 92 a 96; North Carolina, ex coupon, 25 a 30; do. new, 19 a 22; do. special tax, 15 ½ a 17; Missouri sixes, 93 a 94; do. Hannibal and St. Joseph, 92 a 93; Louisiana sixes, 67 a 70; do. new, 58 a 62; do. levee sixes, 65 a 70; do. do. eights, 75 a 80; do. do. eights, 1875, 75 a 80; do. Penitentiary sevens, 65 a 70; do, railroad eights, 75 a 80; Ala-bandaries, and Eufala Railroad, 90 a 95; South Carolina sixes, 72 a 75; do. new, January and July, 43 a 43 ½; do. do., April and October, 42 a 43; Arkan sas sixes, funded, 55 a 58.

The stock market was exceedingly strong and prices underwent a further advance, the chief Improvement occurring in Pittsburg. which sold at 1244 and in Northwest common, which touched 63. Owing to the peculiar influences underlying the sharp reaction in the market since Wednesday last, the street was vigilant in watching for the least sign of any intention on the part of the clique to unload, and when evidence of such a movement was thought to be afforded in various manœuvres this afternoon there was a sudden pressure to sell even when money had relaxed to four per cent, Northwest, which had been the salient feature of the "bull" speculation going off to 61. The "bulls" subsequently rallied the market about one per cent, but prices again declined at the close. The clique "doubled" on the street so suddenly last week that attention is riveted on their movements with a view to learning when they will abandon the "bull" for the "bear" side once more. The operators suspected of forming the combination are usually bearish in their views, and bence the street is not disposed to follow them too far in any upward speculation. The evidence of a fresh change of tac-tics was thought to be furnished to-day by the sudden scarcity of several of the lead-ing stocas, for which borrowers had to pay in some instances a consideration to pay in some instances a consideration of 1-16th per cent, while "flat" was a quite common rate. The device of a "corner" is one which the "bulis" usually employ when they have decided to bring their speculation to a conclusion. Indeed, it is not improbable that the same parties who are interested in higher gold are prepared to reverse their situation as regards the stock market. They made money both ways up to this time, and the presilge of recent success has a great deal to do with giving them control of the two markets for an indefinite period. The business to-day was on an enormous scale, and nearly equal to the most active known in the history of the Stock Exchange. Exclusive of Pittsburg the advance ranged 1 to 2% per cent, and averaged nearly two per cent at the time the best figures prevailed.

The following table shows the highest and lowest prices of the principal stocks during the day:-88% 83% 28% 107% 96% 57

The easier feeling in the money market revived tae demand for railroad bonds, and prices were firmer. The following were the bids at the call:-

and resumed the order of business. Mr. George W.

Mr. ALPREND, of Virginia, offered the following:-Resolved, That the Committee on Investment and Assets be instructed to inquire and report what proportion, if any, of the capital of fire and marine companies should be in-vested in stock notes.

be instructed to inquire and report what proportion, if any, of the capital of are and marine companies should be invested in stock notes.

The consideration of this was referred.

Mr. Julius F. Clarke, of Massachusetts, offered the following:—

Whereas the collection and combination of the actual experiences of the American life insurance companies, as illustrating and establishing the law of mortality among forsured lives within their own field of operation, has now become eminently desirable and important, therefore Resolved, that the Irealdest of this Convention appoint a committee to report the names of State invarance officials and actuaries and managers of life insurance companies, who shall constitute a joint Special Commission to assist in the collection of the requisite data and to compile therefore an exceeded and complete American experience table of mortality.

This resolution, after a short discussion, was adopted.

Mr. Bow, of Micnigan, offered a resolution in effect that when any insurance company shall be in a condition to render the winding up of its affairs necessary, the supervising officer of the State in which such company is organized shall notify the proper official in each State, where such company may have received authority for the current year, of the action taken and the reasons therefor. Referred to the Legislative Committee.

The Committee on Miscellaneous Subjects reported that they deemed it not expedient to invoke national legislation upon sabects of insurance. The committee supported this opinion by a number of reasons, which were given in detail. They commended State legislation in detail, and strongly recommended the protection of life policies from the effect of bankruptcy laws, but that polidies of the value of \$10.000 should be the maximum amount to obtain protection.

Mr. Paine, of Maine, was allowed to speak in gressional legislation in the last session he would be able to attend during the present meeting of the Convention.

Mr. CLARRE, of Massachusetts, replied to an interrogatory of Mr. Miller, and said that there was not a company doing business in Massachusetts that was impaired by the four-per-ceat standard.

Mr. Homans, actuary of the Mutual Life Assurance Company, gave a history of the American Mortality Experience Table. He said that that table was struck by himself, in 1859, from the experience of one company, and that company soiety. It was not their intention to use it outside of that company. In 1861 he went to Europe and obtained the opinions of eminent actuaries. Seven or eight years afterwards another table was struck, which, in all important respects, was the same as the first. Mr. Homans spoke at length in support of tals table, and, in reference to the rate of interest, he believed that it was better to judge the value of a company on its own merits rather than from any particular standard.

The Convention adjourned until this morning.
